The perfect fusion of **rugged and sleek.**

Meet the Intermec CS40—the first rugged mobile computer that's more than a smartphone. You get the tough, dependable construction of an industrial-grade device with the sleek versatility and feel of a smartphone. Plus, you can quickly scan 1D and 2D barcodes with the dedicated imager, update inventory, send messages, take photos, make calls and download files. Best of all, you'll enjoy a total cost of ownership that's up to four times better than a smartphone. And you can drop it from 4 feet, guaranteed.

Discover where rugged meets sleek. **www.YourURL.com**
