INTRODUCTION

Intermec Printers: Smart • Strong • Secure

Designed to serve a wide array of customer needs and applications, Intermec printers range from fixed printers that endure harsh industrial environments to desktop printers right-sized for a range of in-premise applications, to mobile printers offering optimal size and durability for a workforce on the go. No matter the size or setting, Intermec printers deliver on three promises that help set them apart from the rest of the industry: **smart hardware and software** that provides for optimal deployment and easy integration, **strong, durable, engineering** for fast, high performance printing that doesn't quit, and **security** that keeps your business data safe.

Smart

The smart design of Intermec printers supports increased productivity in demanding work environments. Intermec Smart Printers can host stand-alone applications, developed through Intermec Fingerprint programming language, which reduce errors and streamline operational processes. Smart Printers can eliminate the PC and control other devices directly (such as scanners, scales, applicators), improving efficiency and decreasing infrastructure costs and complexity. Many Intermec printers offer on-device management and diagnostic capabilities, provided through Intermec SmartSystems™ and Wavelink Avalanche™.

Strong

Rugged Intermec printers deliver outstanding performance in mission-critical applications with industry-leading marks in durability, drop range, and time-to-first-print. Intermec printers are co-engineered and tested with Intermec labels and other media products, optimizing performance when used with genuine Intermec media. Rigorous testing and co-engineering ensures maximum print head service life, consistently high print quality, and proven label and tag performance in demanding real-world environments.

Secure

Intermec printers are designed to maintain wireless network integrity and reduce configuration time. Intermec printers provide multiple interface options including the highest level of secure wireless connectivity (WPA2) and many are available with Wi-Fi- and CCX-Certification. Intermec printers install with drop-in simplicity into Intermec or mixed printer environments, and provide a broad range of industry- standard connectivity options to support fast deployment.

An Integrated Solution: Better Together

Intermec printers and media are complemented by our complete line of integrated solutions and services, including rugged mobile computers, RFID systems and advanced scanning technology. Intermec products and services are used by customers worldwide to improve the productivity, quality and responsiveness of their business operations. Find the right solution for your business by reading on, and contact us when you're ready to put our integrated solutions to work for you.

PRINTERS: INDUSTRIAL

PX4i & PX6i High-Performance Printers

The rugged PX4i (four inch) and PX6i (six-inch) bar code printers deliver outstanding performance for round-the-clock, mission-critical applications. Their multiple interface options, secure wireless connectivity, and support for the latest network protocols ensure easy integration and long-term scalability. Stand-alone Smart Printing eliminates PC costs and complexity, and enables quick ROI.

Popular Configurations

PX4C010000000020	PX4i, DT/TTR, Universal Firmware, 203 dpi
PX4C010000005020	PX4i, DT/TTR, Universal Firmware, Self Strip, LTS, 203 dpi
PX4C010000005030	PX4i, DT/TTR, Universal Firmware, Self Strip, LTS, 300 dpi
PX4C010000005130	PX4i, DT/TTR, Universal Firmware, Self Strip, LTS, RTC, 300 dpi
PX4C011000000040	PX4i, DT/TTR, Universal Firmware, Parallel Port, 400 dpi
PX6C010000000020	PX6i, DT/TTR, Universal Firmware, 203 dpi
PX6C010000000030	PX6i, DT/TTR, Universal Firmware, 300 dpi
PX6C010000001020	PX6i, DT/TTR, Universal Firmware, Self Strip, 203 dpi
PX6C010000001130	PX6i, DT/TTR, Universal Firmware, Self Strip, RTC, 300dpi

Direct Thermal & Thermal Transfer

Typical Volume: 5,000-10,000+ labels/ day

Print Width (max):

PX4i: 112 mm (4.4 in)

PX6i: 167.4 mm (6.59 in)

Resolution: 8 dots/mm (203 dpi); 11.8 dots/mm (300 dpi); for PX4 ONLY: 16 dots/mm (400 dpi)

Print Speed (max):

PX4i: 300 mm/s (12 ips)

PX6i: 225 mm/s (9 ips)

Size (LxHxW):

PX4i: 482 x 238 x 275 mm (19.0 x 9.4 x 10.8 in)

PX6i: 482 x 238 x 335 mm (19.0 x 9.4 x 13.2 in)

Weight:

PX4i: 12.85 kg (28.4 lbs)

PX6i: 14.80 kg (32.6 lbs)

Interfaces

Ethernet, Serial, USB 2.0, USB Host/Device (standard); Parallel, 802.11 b/g (WiFi & CCX Certified) (optional)

Memory

8MB Flash, 16 MB SDRAM, 1GB CompactFlash slot, Multi GB USB Thumb Drive Memory slot

Printer Programming Languages

Fingerprint, IPL, DPL, ZPL

RFID

EPC Generation 2 / ISO 18000-6C, ISO 18000-6B

PRINTERS: INDUSTRIAL

PM4i Mid-Range Printer

Our most popular mid-range printer, the rugged PM4i is flexible and programmable, enabling customers to optimize printing operations, streamline deployment and achieve quick ROI. Stand-alone Smart Printing, secure wireless connectivity, and the latest network protocols ensure long-term scalability. The PM4i is an ideal replacement for Intermec 3400e Model Printer. Also available: PM4i RFID Printer.

Popular Configurations

PM4D01000000020 PM4i, DT/TTR, Universal Firmware, 203 dpi
PM4D010000005020 PM4i, DT/TTR, Universal Firmware, Self Strip, 203 dpi

Direct Thermal & Thermal Transfer

Typical Volume: 2000-7000 labels/day

Print Width (max): 105.7 mm (4.16 in)

Resolution: 8 dots/mm (203 dpi);
11.8 dots/mm (300 dpi)

Print Speed (max): 200 mm/s (8 ips)

Size (LxHxW): 543 x 261 x 298 mm
(21.38 x 10.28 x 11.73 in)

Weight: 13.5 kg (29.76 lbs)

Interfaces

Ethernet, Serial, USB 2.0, USB Host/
Device (standard); Parallel, 802.11 b/g
(WiFi & CCX Certified) (optional)

Memory

8MB Flash, 16 MB SDRAM, 1GB CompactFlash
slot, Multi GB USB Thumb Drive Memory slot

Printer Programming Languages

Fingerprint, IPL, DPL, ZPL

RFID

EPC Generation 2 / ISO 18000-6C,
ISO 18000-6B

PF2i & PF4i Mid-Range Printers

The compact PF2i (two-inch) and PF4i (four-inch) bar code printers meet the need of space-constrained, mission-critical applications. Flexible and programmable, these printers enable customers to optimize their printing operations, streamline deployment, and achieve quick ROI. Stand-alone Smart Printing, secure wireless connectivity, and the latest network protocols ensure long-term scalability. Also available: the PF2i RFID Baggage Tag Printer.

Popular Configurations

PF4ID03100030020 PF4i, Extra Industrial, Dome Door,
Universal Firmware, DT/TTR 203dpi
PF4ID03100031020 PF4i, Extra Industrial, Dome Door,
Universal Firmware, Self Strip, LTS, DT/TTR 203dpi
PF4ID00100000020 PF4i, Extra Industrial, Dome Door,
Universal Firmware, Parallel, DT/TTR 203dpi
PF4ID00100000021 PF4i, Extra Industrial, Dome Door,
Universal Firmware, Parallel, DT 203dpi
PF2ID00100001121 PF2i, Long Door, Universal Firmware, Self Strip, LTS, RTC, DT 203dpi
PF2ID01100000021 PF2iShort Door, Universal Firmware,
Self Strip, LTS, RTC, DT 203dpi

Direct Thermal & Thermal Transfer

Typical Volume: 2000-7000 labels/day

Print Width (max):

PF2i: 56 mm (2.2 in)

PF4i: 105.7 mm (4.16 in)

Resolution:

PF2i: 8 dots/mm (203 dpi)

PF4i: 8 dots/mm (203 dpi);

11.8 dots/mm (300 dpi)

Print Speed (max): 200 mm/s (8 ips)

Size (LxHxW):

PF2i: 397 x 178 x 194 mm (15.6 x 7 x 7.6 in)

PF4i: 405 x 178 x 244 mm (15.9 x 7.0 x 9.6 in)

Weight:

PF2i: 5.5 kg (12 lbs)

PF4i: 8 kg (17.7 lbs)

Interfaces

Ethernet, Serial, USB 2.0, USB Host/
Device (standard); Parallel, 802.11 b/g
(WiFi & CCX Certified) (optional)

Memory

8MB Flash, 16 MB SDRAM, 1GB CompactFlash
slot, Multi GB USB Thumb Drive Memory slot

Printer Programming Languages

Fingerprint, IPL, DPL, ZPL

PRINTERS: INDUSTRIAL

PD41 & PD42 Commercial Printers

Versatile rugged metal printers suitable for medium-duty applications in manufacturing, transportation and warehousing. Choose from tamper-proof PD41 with one-button interface or PD42 with full graphical display, enabling users to set up, configure and fine-tune printing parameters directly. Both include Smart Printing capabilities, secure wireless connectivity, and all-in-one printer programming languages (including ESim).

Direct Thermal & Thermal Transfer

Typical Volume: 1000-4000 labels/day

Print Width (max): 104 mm (4.09 in)

Resolution: 8 dots/mm (203 dpi),
12 dots/mm (300 dpi, option)

Print Speed (max): 153 mm/sec (6 ips)

Size (LxHxW): 453 x273 x270 mm
(17.8 x 10.8 x 10.6 in)

Weight: 13kg (28.7 lbs)

Interfaces

Ethernet, Serial, USB 2.0, USB Host/
Device (standard); Parallel, 802.11 b/g
(WiFi & CCX Certified) (optional)

Memory

8MB Flash, 16 MB SDRAM, 1GB CompactFlash
slot, Multi GB USB Thumb Drive Memory slot

Printer Programming Languages

Fingerprint, IPL, EPL, DPL, ZPL

Popular Configurations

PD41B1100002020	PD41B, DT/TTR, US/EU Cord, Universal FW, Ethernet, Parallel, LTS, 203 dpi
PD41B1000002020	PD41B, DT/TTR, US/EU Cord, Universal FW, Ethernet, LTS, 203 dpi
PD41B1100002030	PD41B, DT/TTR, US/EU Cord, Universal FW, Ethernet, Parallel, LTS, 300 dpi
PD41B1000002021	PD41B, DT Only, US/EU Cord, Universal FW, Ethernet, LTS, 203 dpi
PD42B1100002020	PD42B, DT/TTR, US/EU Cord, Universal FW, Ethernet, Parallel, LTS, 203 dpi
PD42B1000002020	PD42B, DT/TTR, US/EU Cord, Universal FW, Ethernet, LTS, 203 dpi
PD42B1100002030	PD42B, DT/TTR, US/EU Cord, Universal FW, Ethernet, Parallel, LTS, 300 dpi
PD42B1000002021	PD42B, DT Only, US/EU Cord, Universal FW, Ethernet, LTS, 203 dpi

PRINTERS: INDUSTRIAL

3240 Specialty Printer

The 3240 is the printer of choice when the application calls for printing complex images on extremely small labels or unique materials. Patented PrecisionPrint technology ensures continuous image registration on the label within a tolerance of ± 0.030 inches (.762 mm). Ideal for electronics or healthcare applications.

Direct Thermal & Thermal Transfer

Print Width (max): 64 mm (2.5 in)

Resolution: 16 dots/mm (406 dpi)

Print Speed (max): 102 mm/s (4 ips)

Size (LxHxW): 438x277x211 mm
(17.25x10.9x8.3 in)

Weight: 14.5 kg (32 lbs.)

Interfaces

Serial (std); Centronics Parallel, Internal IBM Twinax or Coax, Internal ethernet (optional)

Memory

Memory expansion to 512K NVRAM

Standard: 128K NVRAM

Popular Configurations

3240B0010000	3240, Serial ONLY, 128 K, DT/TT, 406 dpi
3240B0410000	3240, Serial, Ethernet, 128 K, DT/TT, 406 dpi
3240B0110000	3240, Serial, Parallel, 128K, DT/TT, 406DPI

PA30 Specialty Printer

Intermec's PA30 Print Engine is a rugged, reliable, metal, high performance applicator print engine designed to increase label placement accuracy and productivity in demanding 24/7 print and apply applications.

Direct Thermal & Thermal Transfer

Typical Volume: 5,000-10,000+ labels/ day

Print Width (max): (DT) 112mm (4.4 in),
(TT) 110mm (4.3 in)

Resolution: 8 dots/mm (203 dpi),
11.8 dots/mm (300 dpi)

Print Speed (max): 300 mm/sec (12 ips)

Size (LxHxW): 520.7X301.62X244.34 mm
(20.5x11.875x9.625 in)

Weight: (29.8 lbs.) (13.51 Kg)

Memory

Standard: 4MB Flash, 16MB SDRAM,

1GB Compact Flash

Optional: 16MB Flash

Popular Configurations

PA30A21000031112	PA30 US FP, Ethernet, DT/TT 203 DPI
PA30A31000031112	PA30 EU FP, Ethernet, DT/TT 203 DPI

PRINTERS: DESKTOP

PF8d & PF8t Desktop Printers

The IT-friendly PF8 printers provide a compact, easy-to-use bar code printing solution that dramatically simplifies deployment and support. Flexible, industry-standard connectivity and proven configuration tools enable drop-in deployment to networked environments. Their quiet, reliable operation makes them the right fit for light duty transportation/courier, healthcare, in-store retail and office applications.

Popular Configurations

PF8DA03000000	PF8d, ESIM, 203 dpi, DT
PF8DA03000100	PF8d, ESIM, 203 dpi, DT, internal Ethernet (Parallel NOT included on this printer.)
PF8TA03000000	PF8t, ESIM, 203 dpi (1" ribbon core)
PF8TA03000100	PF8t, ESIM, 203 dpi, TTR, internal Ethernet, 1" core
PF8TA03001000	PF8t, ESIM, 300 dpi (1" ribbon core)
PF8TA03001100	PF8t, ESIM, 300 dpi, TTR, internal Ethernet, 1" core
PF8TA03100000	PF8t, ESIM, 203 dpi (0.5" ribbon core)
PF8TA03100100	PF8t, ESIM, 203 dpi, TTR, internal Ethernet, 0.5" core
PF8TA03101000	PF8t, ESIM, 300 dpi (0.5" ribbon core)
PF8TA03101100	PF8t, ESIM, 300 dpi, TTR, internal Ethernet, 0.5

Direct Thermal (PF8d) & Thermal Transfer (PF8t)

Typical Volume: 1,000 labels/day
Print Width: 203 dpi – max. 104 mm (4.1 in) 300 dpi – max. 106 mm (4.2 in)
Resolution: 8 dots/mm (203 dpi) or 12 dots/mm (300 dpi) (PF8t)

Physical Characteristics

Print Speed (max): Selectable up to 4 ips (101.6 mm) for 203 dpi
2 ips (50.8 mm) for 300dpi

PF8d

Size (LxHxW): 218x116x168 mm (8.58x4.56x6.61 in)

PF8t

Size (LxHxW): 285x172x226 mm (11.2x6.77x8.9 in)

Interfaces

Standard: RS-232C, USB v.2.0, and Centronics/Parallel

Optional: Internal Ethernet 10/100 Mbps, External Ethernet Adaptor

Memory

RAM: 4MB Flash: 8MB SDRAM

Compact Flash: 1GB Compact Flash (Optional, PF8t only)

Power

Separate power supply unit – **Input:** 100–240 V AC/50–60 Hz, 1.9 A **Output:** 24 V DC, 3.0 A

Other: ESIM v7.x printer language.

Real-time clock (PF8d standard, PF8t optional)

PC41 Desktop Printer

Bar code label printing has never been so easy. The PC41 facilitates getting started with choice of stationary or mobile printing, in a small compact printer designed to fit where space is limited. Double clam shell design minimizes down time with quick and easy media replenishment and QuickMount™ printhead changes. Labels and ribbons are easily swapped out via drop-in replacement.

Popular Configurations

PC41A000000	IPL, DT, Tear Off & Self Strip w/ Label Taken Sensor, 203 dpi
PC41A001000	IPL, TTR, Tear Off & Self Strip w/ Label Taken Sensor, 203 dpi

Direct Thermal only or Direct Thermal/Thermal Transfer

Typical Volume: 1,000 labels/day
Print Width (max): 108 mm (4.25 in)
Resolution: 8 dots/mm (203 dpi)
Print Speed (max): 102 mm/s (4 ips)

Size (LxHxW): 257x167x230 mm (10.1x6.6x9.1 in)

Interfaces: Standard: RS-232C and Centronics Parallel

Optional: External Ethernet

Memory: Standard: 1 MB Flash, 512 KB RAM, Compact Flash slot

Optional: 1 MB Compact Flash

Other: IPL printer language. Backward compatible with 7421 printers.

Optimize performance.

PRINTERS: MOBILE

PB21, PB31 & PB51 Rugged Mobile Receipt Printers

The fastest choice for rugged mobile receipt printing, the PB21, PB31 and PB51 deliver a clear productivity advantage for workers on-the-go who need to produce invoices, delivery receipts, service estimates, mobile point-of-sale receipts and sales orders. Built to withstand the bumps, drops and spills of fast-paced mobile usage, they provide performance your workers can depend on, day after day. As Smart Printers, the rugged PB printers can host stand-alone applications that streamline operations and improve productivity.

Popular Configurations

PB21A30000000	PB21, 2" receipt, ESC-P, Fingerprint/DP, USB and Serial
PB21A30004000	PB21, 2" receipt, ESC-P, Fingerprint/DP, BT
PB21A30004001	PB21, 2" receipt, ESC-P, Fingerprint/DP, BT, Card Reader
PB21A30804000	PB21, 2" receipt, ESC-P, Fingerprint/DP, WiFi

PW50 Mobile Workboard Printer

Designed specifically to complement Intermec CN3, CN3e and CK61 handheld computers in DSD, field service and route accounting applications, the PW50 four-inch receipt printer delivers an integrated solution in a convenient, workboard format.

Physical Characteristics

Size (DxWxH): 80x310x180 mm (3.2x12.2x7 in)
Weight with battery: 1688 g (59.5 oz)
Drop spec: 1.2 m (4 ft)

Power

Battery Type: 14.8V Li-Ion, 2200mAh (4 cells)

Communications

RS-232 Serial (115k), Bluetooth® (Class 1), DEX / UCS

Print Specifications

Speed: 4 ips (100 mm/s)
Resolution: 203 DPI (8 dots/mm)
Width: 108 mm (4.25 in) max

Memory

RAM: 16MB **Flash:** 64MB

Printer Programming Languages

ESC-P command sets

Supported Handhelds

Intermec CN3, CN3e, CK61 mobile computers

Optional Features

Magnetic Stripe Reader and Smart Card Reader

Preferred Configurations

PW50A010101	PW50A, BT, DEX, CN3/CN3E, ESC-P, MSR/SCR
PW50A010102	PW50A, BT, DEX, CN3/CN3E, ESC-P, NO MSR/SCR
PW50A020101	PW50A, BT, DEX, CK61, ESC-P, MSR/SCR
PW50A020102	PW50A, BT, DEX, CK61, ESC-P, NO MSR/SCR

MEDIA: MATERIAL DESCRIPTIONS

Product Group	Description
Duratherm II	Duratherm II is a non top-coated direct thermal paper that offers high quality, cost-effective printing. This material is recommended for most general-use applications where exposure to chemicals and moisture is not anticipated.
Duratherm II Tag	Duratherm II Tag is a 7-mil non top-coated direct thermal paper that offers high quality, cost-effective printing. This material is recommended for most general-use applications where exposure to chemicals and moisture is not anticipated.
Duratherm III	Duratherm III is a top-coated direct thermal paper that provides enhanced durability for applications where humidity and surface abrasion are a concern.
Duratherm III Linerless	Duratherm III Linerless is a self-wound adhesive label that provides excellent print quality and durability without the need for a liner. By removing the liner, the roll capacity increases and there's no need to dispose of the liner.
Duratherm III IR	Duratherm III IR is a top-coated direct thermal paper that provides sharp text and bar code printing. Can be scanned with either visible or infrared scanning devices. This product is recommended for use in direct thermal applications where contamination may interfere with bar code scanning.
Duratherm Lightning	Duratherm Lightning is a top-coated direct thermal paper that is more sensitive than the Duratherm III product. This product requires less energy to image and provides high-quality printing.
Duratron™ II	Duratron™ II is a top-coated thermal transfer paper that demonstrates excellent print quality with both the TMX1500 and TMX2200 ribbons. This product is recommended where moderate abrasion, heat or sunlight are present.
Duratron™ II Tag	Duratron™ II Tag is a 7-mil paper tag that provides excellent print quality is recommended for most general-use applications where exposure to chemicals and moisture is not anticipated. This tag is compatible with TMX1500 and TMX2200 ribbons.
Duratron S	A 3 mil thick polypropylene thermal transfer label at an attractive price point. The matte face stock offers excellent print quality and moisture resistance; recommended for up to 6 months outdoor exposure.
Duratron™ II Syntran	A durable polyethylene thermal transfer label. Aggressive specialty adhesive provides excellent tamper evidence on most surfaces.
Duratron™ II Kimdura	A durable, high-quality polyolefin thermal transfer label. Exhibits good tear resistance and moisture resistance, as well as moderate temperature and chemical resistance.
Duratron™ II Gloss Polyester	A high-gloss, top-coated polyester label with exceptional print quality. Excellent tear, smear and abrasion resistance; highly moisture and heat resistant. Product is UL recognized when printed with Intermec ThermaMAX 3201 and 3202 ribbons. Also available in clear and silver face stocks. 4 mil face stocks available for self-strip applications.
Duratron™ II Synthetic Tag	Polyolefin tag with broad application within industrial and outdoor environments. Good tear resistance and durability outdoors.
Duratron™ II Valeron Tag	A premium performance polyethylene tag with excellent tear resistance. Excellent choice when attaching with thin gauge wire or when staples are used.
ThermaMAX 1500	A general-purpose, smear-resistant wax ribbon providing good durability when printing on Duratron™ II Papers and across the range of Intermec Mid-Range Film product line.
ThermaMAX 2200	A mid-range ribbon that provides enhanced abrasion/smear resistance and high image quality when used with Duratron II coated papers and across the Intermec Mid-Range Film product line.
ThermaMAX 3202	A high quality resin ribbon for applications that require the optimum level of smear and abrasion resistance. Excellent imaging and performance across the Intermec Ultra-Durable Film product line.

SOFTWARE

BarTender® by Seagull Scientific

BarTender provides full control over nearly every aspect of label design, including bar codes, text, and graphics. Includes Seagull's world-famous true Windows printer drivers, which can also encode "smart label" RFID tags on capable printers. BarTender is Microsoft-certified as "Designed for Windows", assuring users a simple installation and a familiar "look and feel". System administrators have it easy too, because networking and printing is done using standard Windows methods instead of custom "print managers".

Professional: All of BarTender's most powerful label design features. Most of the advanced data access capabilities, including OLE DB and ODBC. Includes Printer Maestro, but it only manages network printers visible to the local PC. Fully network compatible.

Enterprise: All the label design features of Professional, plus integration tools such as ActiveX Automation, enterprise messaging and powerful data sourcing including ODBC, OLE-DB, SAP, Oracle, and more. Includes Printer Maestro, but it only manages network printers visible to the local PC. Fully network compatible.

RFID Enterprise: Features and licensing same as Enterprise, but adds support for RFID encoding and printing on capable printers.

Part Numbers*

BT-REUL RFID Enterprise Edition: Unlimited users and printers.

BT-RE# RFID Enterprise Edition: Unlimited users and "#" printers, # = 3, 5, 10, 20, or 40.

BT32i-EUL Enterprise Edition: Unlimited Users and Printers

BT32i-E# Enterprise Edition: Unlimited Users and # Printers, # = 3, 5, 10, 20, or 40

BT32-PRO Professional Edition: One User, Unlimited Printers

Features

- Support for TrueType, downloadable, and resident printer fonts
- Extensive library of 1D and 2D symbologies and industry-standard bar code formats
- GS1 (formerly UCC/EAN) Application Identifier setup wizard
- ActiveX Automation and "Commander" utility integration with other applications
- Full system Unicode support with data access via ODBC, OLE DB and text files
- SAP and Oracle certified solutions
- RFID data encoding compatible

NiceLabel by NiceWare®

The NiceLabel family of bar code and RFID smart labeling software products enables label design, printing, and integration into desktop, enterprise, and mobile environments. NiceLabel is available in three editions that support over 700 models of thermal label printers: Express, Pro, and Suite.

NiceLabel Express: Wizard-based software designed for basic bar code labeling needs. This entry-level software includes many design elements from the professional edition

with the emphasis on simplified user interaction.

NiceLabel Pro: Full-featured software that enables professional bar code and RFID label design and printing. Includes complete Unicode database support and integration options.

NiceLabel Suite: Includes the following modules for integrating into the most demanding barcode and RFID applications: NiceLabel Pro, NiceForm, NicePrint, NiceWatch, NiceData, NicePrintQueue, NiceMemMaster, Pocket NiceLabel.

Part Numbers*

NLE NiceLabel Express

NLP NiceLabel Pro

NLS NiceLabel Suite

Features

- Wizard-based user interface with advanced label design elements and tools
- All industry-standard linear, EAN.UCC 128 and RSS (Linear and Composite) bar code types
- 2-D symbologies, including PDF 417, Data Matrix, MaxiCode, InfoGlyph
- RFID smart label support (EPC Gen2 included)
- Serialization with custom base, roll over and increment control
- Multiple connections to any database, built-in query and custom SQL scripting

*Other configurations available. See Product Links on www.intermec.com.

SOFTWARE

LabelShop® ULTRA and PRO by Intermec

Intermec's family of LabelShop software offers a suite of choices for small businesses or large companies running their printers via the network. The user-friendly interface combines powerful Windows-based commands with the graphic flexibility to scale, rotate and mirror graphics. LabelShop guides you through designing and printing labels quickly and easily.

LabelShop START: Provides basic label design functions, text, bar code, graphics, sequential numbering and keyboard input data. LabelShop

Start is included on the printer companion CD shipped with every printer and is available via free download at www.intermec.com.

LabelShop ULTRA and PRO: LabelShop ULTRA and PRO versions support ODBC for accessing existing corporate databases. Using the Code Converter feature in ULTRA and PRO versions enables users to import existing label formats and printer command language files. LabelShop PRO is not only a label printing software, but a powerful tool in label printing solutions. Develop command files for use in host systems, or store them in the printer for simple printing from host.

Part Numbers*

474-090-001

LabelShop ULTRA, USB, US/ROW
(English, French, Spanish)

474-104-001

LabelShop PRO, USB, US/ROW
(English, French, Spanish)

Features

- Code Converter (converts a printer language file to print on any printer)
- All industry-standard linear, EAN.UCC 128 and RSS bar code types and 2-D symbologies
- Database Manager with support for ASCII database, ODBC and multiple ODBC tables. Allows filters on tables, SQL-mode and save query
- UCC/EAN 128 Wizard
- Tracking Report (for print jobs follow-up)
- RFID programming

Teklynx®

Teklynx® label design software packages (LABELVIEW™, LABEL MATRIX®, and CODESOFT®) offer easy-to-use labeling solutions for enterprise-wide or standalone applications. All three come with sales and support you would expect from the world's largest Auto ID software publisher.

CODESOFT: Easily integrate bar code label printing into your business environment, dramatically enhancing both efficiency and control. Whether your goal is managing assets and resources, controlling distribution channels and stock levels, tracking documents, or managing data records, CODESOFT barcode label design software provides a powerful solution for your organization's most advanced labeling projects.

LABELVIEW: Powerful Label Design and Integration Software for Beginners All the Way Up to Advanced Users. Whether you need to use LABELVIEW barcode label software to print RFID labels, print bar code labels or print compliance labels, LABELVIEW's new features and an intuitive interface provide the most powerful solution.

LABEL MATRIX: Easy-To-Use Label Design Software with an Intuitive User Interface and Helpful Label Design Wizards. Whether you need to design and print barcode, compliance or RFID labels, LABEL MATRIX's helpful design wizards give you an easy-to-use solution for any industry.

*Other configurations available. See Product Links on www.intermec.com.

INTERMEC MEDALLION SUPPORT

Trust Intermec devices to Intermec and authorized Intermec repair centers. Intermec has a maintenance plan that will meet both your service level and budget requirements.

Medallion Services

- Locked in, long-term value-based pricing
- Available 3 or 5 year contract terms that align with depreciation and/or leasing schedules
- Committed turnaround times
- Coverage of defects, failures, and normal wear and tear damage
- Telephone-based technical support
- On-Site Service coverage is available in most areas

Complete Services

- All the services of the Medallion plans
- Accidental physical damage coverage
- On-Site Service coverage is available in most areas
- Preventive Maintenance visits included with On-Site coverage

Ask about Intermec's

Free Printhead Replacement Program*

- Provides no-cost printhead replacement for all Intermec fixed printers
- Lowers total cost of ownership, speeds up return on investment
- Applies to all Intermec media supplies

*Conditions apply. See www.intermec.com

ORDERING INFORMATION: HELPFUL TIPS

Direct Thermal vs. Thermal Transfer

Direct Thermal Media Explained

Direct Thermal media uses a transparent heat-sensitive coating applied to its surface to image text and bar codes. When the heat from the print head contacts the coating, it initiates a chemical reaction that turns the coating black.

Thermal Transfer Media Explained

Thermal Transfer media uses a ribbon to image the text and bar codes on a variety of materials, both paper and film. When the ribbon is passed beneath the print head, the heat softens the ribbon ink while in contact with the label or tag, resulting in the transfer of the ink to the surface of the label or tag. There are three general classes of ribbons that are used in thermal printers: Wax, Mid-range, and Resin.

Wax ribbons are the most commonly used class and are mostly targeted to print paper labels and tags that will be exposed to relatively benign environments. Wax ribbons are also used to print on film labels and tags in some applications.

Mid-range ribbons are a hybrid design where resin is mixed with the wax to produce ribbons with durability properties that fall somewhere between the wax and resin ribbons. Mid-range ribbons are used to print on both paper and film labels and tags.

Resin ribbons are the most durable and are mostly targeted to printing on film labels and tags that will be exposed to extreme environments.

Choose the Right Technology for Your Application

Criteria	Direct Thermal Media	Thermal Transfer Media
Life Span	Short-term Less than 1 year	Long-term More than 1 year
Abrasion Resistance	Low	Low (wax) to High (resin)
Chemical Resistance	Limited	High When paired with proper label or tag material
Outdoor Use	Not Recommended	Well-suited when using proper label and tag materials
Heat and Sun Exposure	Not recommended	Not affected by sunlight. Many high-temperature materials are available.

ORDERING INFORMATION: HELPFUL TIPS

Types of Media Supplies

Take- From-Stock Supplies

These are the most commonly requested media types and sizes and are readily available for order. TFS supplies usually ship within 24 hours upon request. See the relevant printer category (mobile, industrial, desktop) for TFS media.

Made To Order Supplies

These supplies are custom configurations that fall outside of the Take From Stock program. These supplies have published pricing and do not require the purchase of tooling when placing an order. However, these items will be subject to custom lead times.

Custom Solutions

For labeling requirements that cannot be met by take-from-stock products, Intermec produces a wide selection of custom media in a variety of sizes, materials, configurations and colors. Intermec custom media solutions offer the following to meet specific needs:

- Hundreds of materials
- Extensive library of dies available for manufacturing custom sizes and configurations for labels and tags
- Up to seven color printing
- Engineering expertise and an industry-leading R&D laboratory to develop product solutions for even the most challenging application (e.g. clean room, chemical baths, and extreme environments)

Pre-Print Products

Variable print options for harsh environment bar code labels and tags, retro-reflective rack labels for warehouses, and serialized product and asset identification labels/tags for customers without in-house, on-demand printing capabilities. Intermec Pre-print is also an option when it is more cost-effective to purchase already-printed labels and tags.

Application Specialties

- Warehouse – Bin, rack, floor, and ceiling labels
- Work in Process (WIP) – Sequentially numbered bar code labels, paint block
- Regulatory or compliance labeling
- Asset Management labels – Property ID, void materials, destructible materials
- Harsh Environments – High heat, extreme abrasion, chemical exposure (i.e. corrosives, acids, solvents)

To contact our Pre-Print Department, please call 800.221.8314 or fax 888.454.4725.

How to Measure a Label

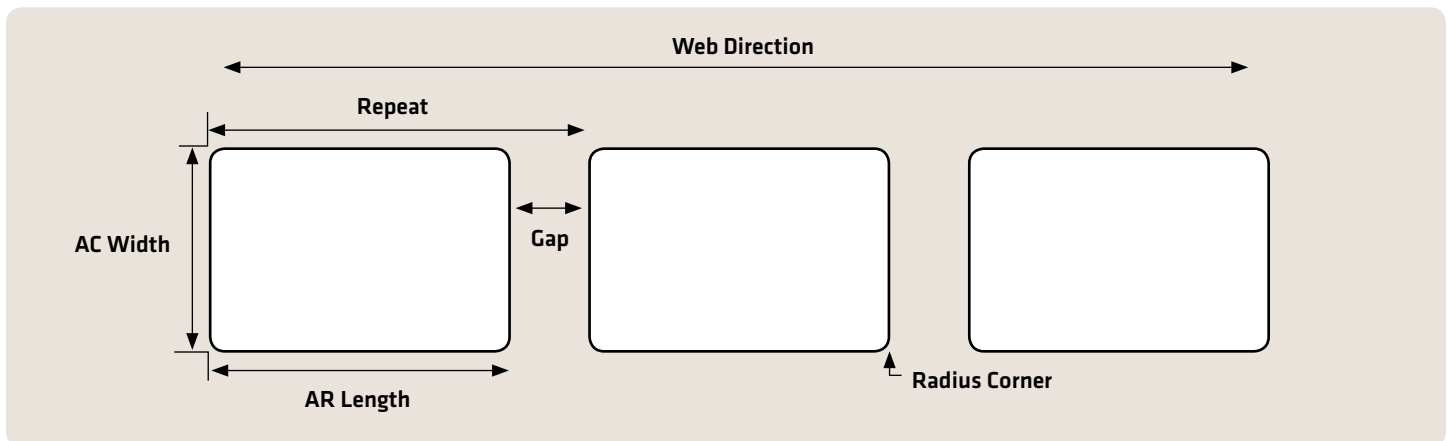

Label Measurements

AC Width – Across the web measurement of label

AR Length – Along the web measurement of the label

Gap – Distance between labels (1/8" is min. for machine application)

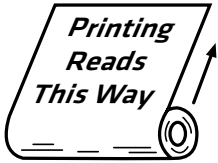

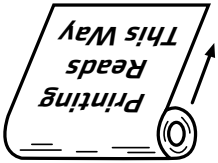

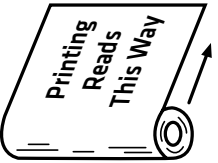

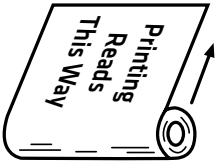

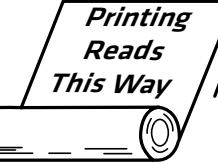

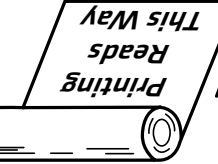

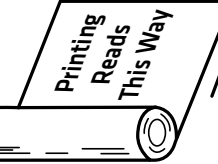

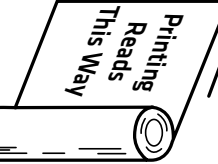

Repeat – Measurement from the edge of one label to the edge of the next label along the web

ORDERING INFORMATION: HELPFUL TIPS

Finished Roll Rewind Chart

When ordering custom media, refer to the chart below to determine print orientation.

<p>1</p>  <p>Labels on outside of roll. Copy printed across the roll. Top of copy coming off of roll first</p>	<p>2</p>  <p>Labels on outside of roll. Copy printed across the roll. Bottom of copy coming off of roll first</p>	<p>3</p>  <p>Labels on outside of roll. Copy printed with roll. Right-hand side of copy coming off of roll first</p>	<p>4</p>  <p>Labels on outside of roll. Copy printed with roll. Left-hand side of copy coming off of roll first</p>
<p>5</p>  <p>Labels on inside of roll. Copy printed across the roll. Top copy coming off of roll first</p>	<p>6</p>  <p>Labels on inside of roll. Copy printed across the roll. Bottom of copy coming off roll first</p>	<p>7</p>  <p>Labels on inside of roll. Copy printed with the roll. Right-hand side of copy coming off roll first</p>	<p>8</p>  <p>Labels on inside of roll. Copy printed with the roll. Left-hand side of copy coming off of roll first</p>

Fraction to Decimal Conversion Chart

Intermec media supplies are ordered in inches and fractions of an inch. Use this chart to convert any decimal measurements to fractions.
