**Honeywell's Voyager class of scanners are a thing of beauty.**

They feature advanced area imaging technology and are designed to help businesses meet all of their current and future scanning needs. Leverage emerging trends. Do more in less space. Scan smarter.

#### **The Voyager 1400g 1D:**

- Reads 1D barcodes and has an optional 2D upgrade
- Captures large amounts of data with small footprint
- Omni-directional reading

#### **The Voyager 1250g:**

- Single-line laser barcode scanner
- Reads barcodes from up to 23" away
- Hands-free with in-stand detection
