

“I need a printer  
I can connect with  
no matter where I am.”

PM43 and PM43c  
Industrial Printers

### The industry's best communicating printer.

The new PM43 / PM43c. It's the most intuitive industrial printer available, with a full touch-screen interface and innovative "no-touch" configurations that ensure the easiest deployment and use of any printer you've ever installed. Communicates in 10 languages or universal icons. Packs a rugged, tamper-proof design that cranks out the fastest throughput in its class, all day long. And you can connect to it from anywhere – just log onto the unique web interface from any computer, tablet, or smart phone.

**PM43 / PM43c: Printers you can connect with – across your facility or 1,000 miles away.**
