

Your Ticket to Automation

Increase productivity and revenue, cut costs and improve officer safety with Intermec e-Citation Solutions

View case studies:

» [San Jose Police Department](#)

» [Snohomish County Sheriff's Office](#)

The hand-written traffic and parking ticket process is time consuming and error-prone. It is subject to handwriting interpretation and requires the extra step of data entry into the traffic enforcement system.

You need automated solutions that increase productivity, efficiency and revenue while cutting costs for the department. Solutions that can work with your existing technology infrastructure and does not require time-consuming deployment implementations and costly workforce training programs.

Intermec is the industry's only single source provider of e-Citation hardware solutions for public service and safety departments, including local, state and federal police agencies. Our comprehensive solution can:

- Increase workforce productivity and revenue
- Enhance efficiencies and cut costs
- Improve officer safety
- Deliver real time access to database files & GPS systems

Our comprehensive line of small, lightweight and rugged mobile computers, printers and scanners provide cost effective solutions to help you increase workforce productivity and revenues as well as improve officer safety — while cutting costs.

Contact us today and learn how quickly we can deploy your Intermec e-Citation solution and possible state and federal grants available to fund your implementation.
